

# STORAGE TANKS

# ESDRAŽICE

## IT ALL BEGAN WITH A SIMPLE IDEA

to produce the most cost-efficient and trouble-free water heater – the best storage heater. Every year, we think we are close enough to our goal. And yet, every year we produce more sophisticated water heaters, storage tanks and heating elements, ...

Maximum user comfort, energy efficiency and environmental responsibility are the main driving forces in our daily work.

Z/T circuit socket = socket of heating sources and heating circuits  
Note: \* The value is derived by calculation

# STORAGE TANKS

serve to accumulate excess heat from its source. The source may be a solid fuel boiler, heat pump, solar collectors, a fireplace insert etc. Some types of tanks allow combining and connecting multiple sources of heat.

NAD, NADS a UKV storage tanks (without DHW preparation) serve only for storing heat in the heating system.

NADO a NADOS storage tanks (with DHW preparation) also allow indirect water heating or water preheating for another water heater.

## STORAGE TANK

## WITHOUT DHW PREPARATION

- Types: 50, 100, 250
- The tank is supplied with non-detachable insulation
- Suitable as an equalization tank for heating systems with solid fuel boilers
- Also suitable for cooling
- The TJ 6/4" heating unit can be mounted into the socket

## STORAGE TANK

## WITH DHW PREPARATION

- Types: 500, 750, 1000 l
- HW heating in inner storage tank 200 l
- The tank is supplied without insulation
- Modern Neodul insulation can be ordered
- Various heat sources can be connected such as biomass, coal, gas and electric boilers, heat pumps and solar collectors
- The TJ 6/4" heating unit can be mounted into sockets no. 5

## ACCESSORIES

- Standard delivery with most tanks
- The first and only category B series insulation on the market
- Standard thickness of insulation is 80 mm
- Example of heat loss for 500 l tank: 1.9 kWh / 24 h with an insulation thickness of 80 mm
- The delivery includes a top cover, flange covers and hole caps
- The NAD 50, 100, 250 v1 and UKV 300, 500 tanks are supplied with polyurethane insulation
- The fleece parts of the insulation contains 65% plastics from recycled PET bottles

Insulation cut with fastener

# IPS ProtectX

## IPS - IONIZATION POLARIZATION SYSTEM

Equipment for the physical treatment of water in connection with the reduction of limestone for the protection of household appliances and water distribution systems

## ADVANTAGES

- It prolongs the service life of heating equipment and sanitary equipment
- No external power supply
- Maintenance free
- Zero additional costs
- It does not use any chemicals
- Negligible pressure losses
- Patented product
- Certified effectiveness
- Blue line - suitable for all types of water supply, in addition it contains disinfectants, suitable e.g. for untreated water sources
- Red line - suitable for all types of water supply

## INDICATIVE DIAGRAM OF THE IPS ProtectX EQUIPMENT LOCATION

1. Consumption meter
2. Shut-off valve
3. Mechanical dirt filter
4. IPS ProtectX

Order number	TYPE	DIMENSIONS (d × l)	MAXIMUM FLOW

100671001	ProtectX G 3/4" (red line)	50 × 245 mm	3,2 m <sup>3</sup> /h
100671002	ProtectX G 1" (red line)	50 × 251 mm	4 m <sup>3</sup> /h
100671003	ProtectX G 1/2" (blue line)	50 × 245 mm	1 m <sup>3</sup> /h
100671004	ProtectX G 3/4" (blue line)	50 × 245 mm	3,2 m <sup>3</sup> /h
100671005	ProtectX G 1" (blue line)	50 × 251 mm	4 m <sup>3</sup> /h

# PROTECT CH

## MINI CHEMICAL WATER TREATMENT PLANT

Chemical water treatment plant for water that protects pipes and equipment against limescale deposits with a replaceable polyphosphate capsule.

## ADVANTAGES:

- Extends the service life of hot water heating appliance
- Installation on cold water supply in horizontal and vertical position
- Replaceable polyphosphate capsule, service life 1 – 2 months
- Maximum flow rate 1 200 l/hr
- The plant does not require a connection to electrical energy

Order Number: 100671022

## ORIGINAL PARTS FROM DRAŽICE

- 24 month warranty period
- Reliability and high quality
- Guarantee of functionality and safety
- Guaranteed long life
- Identical components used in manufacturing
- Easy availability throughout the Czech Republic

### ANODE WITH EXTERNAL POWER SUPPLY

- Used for protection of inner enamel storage tanks and extends their life span
- Usable up to a volume of 300 l
- Maintenance free, wear proof
- To order

<b>Order number</b>	6199209
<b>Diameter</b>	2 mm
<b>Length</b>	200 mm
<b>Coat length</b>	100 mm

## **ANOTHER ASSORTMENT**

PHOTOVOLTAIC  
WATER HEATERS

Complete photovoltaic solutions for your house.

More information can be found at [www.dzd-solar.cz](http://www.dzd-solar.cz).

More information can be found at [www.dzd-fv.cz/en](http://www.dzd-fv.cz/en)

There is over 380 types of water heaters in product portfolio of Dražice.  
Volume from 5l up to 1000l

### Standart assortment - following the type of installation

- wall-mounted – vertically or horizontally
- floor-standing

### Other assortment - following the type of heat source

- electric
- combined
- indirect

More information can be found at [www.dzd.cz/en/ohrivace-a-zasobniky-teple-vody](http://www.dzd.cz/en/ohrivace-a-zasobniky-teple-vody)

**SPLIT AIR is an air conditioner with one indoor unit designed for flats, family houses, offices or smaller facilities.**

The air conditioner consists of an outdoor unit, one indoor unit and a smart remote controller.

All three performance variants of the AIR air conditioner offer cooling, heating, a fan and drying functions.

**The Multisplit AIR PLUS air conditioners are designed for systems with a requirement for more indoor units.**

In this solution, one suitably dimensioned outdoor unit is supplemented by two to four indoor units of identical or different outputs so that the requirements of the project are optimally met.

By combining three types of outdoor units and four types of indoor units, practically any configuration of cooling and heating systems can be achieved exactly according to your needs.
